July 2021

MAHA launches vaccination campaign

- **With the start of the vaccination campaign at MAHA Maschinenbau Haldenwang GmbH & Co. KG, the company has been saying since 07 June 2021: Hygiene, Distance, Test, VACCINATE.**

Haldenwang, 06 July 2021. Before the first vaccination date, the preparations have been running at full speed since the beginning of April. The vaccine was finally ordered through the MAHA company doctor, and the company entered into a cooperation agreement with the vaccination centre in Kempten. On 7 June, the 70 vaccine doses allocated to us were received for the first time. In compliance with the cold chain, they were collected personally from the company doctor by a MAHA employee on 8 June and delivered to the vaccination centre. The first 70 employees were then randomly selected from the 210 registrations.

Just two days later, these employees received their first vaccination. "As a service technician, I often have to test myself because of my many contacts. It's great that I now had the opportunity for the first vaccination thanks to MAHA," says Florin Vedinas happily. Like Mr. Vedinas, all the others who wanted to be vaccinated were also happy about such a smooth and very well organised procedure. "Our personnel department and the crisis team did a great job here," says the company's management. In a total of only three weeks, all other MAHA employees willing to be vaccinated could be vaccinated for the first time. The dates for the second vaccination have already been scheduled. The organisation of the vaccination at MAHA is yet another milestone in the company's health management.

Alexander Schwägerl (District Manager BRK District Association Oberallgäu) and Maurizio Kaiser (MAHA Maschinenbau Haldenwang)
